In the back half of this guide you'll find six sections covering Therapists & Specialists, In Home & Community Support, Accommodation, Advisors, Equipment & Technology and Mental Health. These sections provide useful information about some of the most commonly searched support services as well as directory tables of a selection of providers delivering different services.

The tables list only 'verified' providers. These providers have confirmed with DPS that the information that is displayed is correct.

Providers are listed by service region. They'll be listed under 'Providers servicing all of SA or NT' if no region was selected or they service the whole State/Territory. See the maps on pages 182 and 183 for the boundaries of each service region.

The lists include both registered and unregistered NDIS providers in alphabetical order, detailing whether they provide Core, Capital or Capacity supports under the NDIS. It also indicates some of the specific services they deliver.

The tables show if the provider can come to your house or school to deliver services or works from a set location such as a medical practice. It also indicates what age groups they can deliver services to.

A bold listing indicates the provider has paid to have their services listed in this guide. If a service provider has an advertisement in this Guide, then the page number of the advert is listed in red under 'Advertisement Page'.

The 'DSG Web ID' number can be used as a unique identifier to find out more information about the provider on DisabilitySupportGuide.com.au. You can enter the ID number into the search toolbar on the home page to view the full profile and range of services of the provider.

For a complete overview of providers and services registered for South Australia and Northern Territory visit DisabilitySupportGuide.com.au/topics/ndis-providers
